March 14, 2008

Dear Skamania County Residents,

I am excited to announce some new changes to the Skamania County Auditor's Office, specifically in the Recording Department.

On March 17, 2008 the Skamania County Auditor's Office transitioned to a new recording software system. This new software is an Aptitude Solutions product called OnCORE County Recording System. If you would like to learn more about Aptitude Solutions, please visit www.aptitudesolutions.com.

In addition to this new system, we are also working to complete an ongoing imaging project in our office. All of our existing public records, dating back to 1854, will be converted to digital images and entered into our new system in the near future. This will allow us to send all of our existing public records to Washington State Archives, where they will properly handled, and preserved for future generations.

We are excited about our new system and the upcoming completion of our imaging project. Please be patient with us as we continue to implement our new system.

Should you have any questions about our new system or the imaging project, please feel free to give us a call at (509) 427-3730.

Yours truly,

J. Michael Garvison
